

Cabledyne™

High-end Audiophile Cables

www.cabledyne.com

Cabledyne high-end audio cables have been the Audiophile's choice for the past several years with many positive product reviews reflecting a high degree of customer satisfaction. Our products are sold online manufacturer direct offering the best value to the audiophile. We offer a 40-Day money back guarantee, secure ordering, and ship worldwide.

Product Features

- Our Signature Virtuoso Designer cable products employ highest purity 7-Nines/OCC unplated solid silver wire. Cryogenically processed.
- Lossless PFA fluoropolymer air core cable structures.
- Cable matched reference grade connectors by Furutech. Cryogenically treated α (Alpha) process.

The Cabledyne Advantage

- We build the best products without excess or gimmicks that simply drive up the price. Our customers experience a system upgrade with our quality cable products.
- Virtuoso products are made in-house with custom discrete component parts. No spooled generic cable is ever used.
- Virtuoso cables are lab tested and sonically evaluated to ensure perfection.
- We stand behind our products with our 10 Year Warranty and outstanding customer service.

Customer Comments

"I just wanted you to know that the Virtuoso cables are simply stellar!.....the best cables I've experienced in 25 years! The Virtuoso adds a degree of organic realism and naturalness, which is so right!! AH, Myakka City FL"

"The Virtuoso Power Cord was a great purchase! The bass, mid-bass definition is outstanding (perhaps due to the 10 gauge silver wire and 20 Amp plugs). Mids and highs are very focused and clean. The cord outperforms many others I have auditioned for a fraction of the price. Robert Clayton, Brookville NY"

"The Virtuoso Signature XLR interconnects perform exceptionally. The feel and the quality of these cables is very satisfying. As the cables break in I am hearing more and more detail of my cherished recordings. Donald Essex, UK"
